**RE: Update of 01-4299-580-343-00 Dispatch-Computer Support**

Board of Selectmen and Budget Committee,

Recently, I received a quote for new computers in the dispatch center. As such, I'd like to update my request for line-item: 01-4299-580-343-00 Dispatch-Computer Support by increasing the request by \$6,000 for a new total in that line item of \$45,000. This \$6,000 will cover the leasing of two computers for the dispatch center as opposed to an outright purchase of the computers. By leasing the computers instead of purchasing them, it allows us to depend on VC3 to provide service and support if anything goes wrong with those computers. These computers are due to be replaced in July 2024.

Respectfully submitted,

Chief Emily Cobb
