1. **Call to Order** - Note the order of the agenda may change per the Chair

The Committee reviewed the most recent draft of the plan. The Committee was joined by Russell Moore of an unofficial New London Transportation Committee that has been discussing how to improve bicycle and pedestrian safety in New London.

Mr. Moore presented the idea of including specific language in the Master Plan regarding Complete Streets. Mr. Moore would like the Committee to direct the Selectboard to adopt a Complete Streets policy.

After significant discussion about the concept of complete streets, the Committee concluded that the plan does a good job of supporting complete street ideas already without naming it, but that they could name it specifically. The Committee did not feel that they should direct the Selectboard to adopt a policy as that would need further study, but that they should recommend that the matter be further reviewed. Jeremy Bonin offered to draft language that would be in a similar style to other recommendations in the plan.

2. **Future Meeting Dates:** January 21th at 8:30 AM
